

JOBPOWER® Adds DocumentVision® For A Winning Combination

filing, retrieval and central storage of documents. "With the built-in scan wizard, it's simple to scan any paper document directly to PDF for storage,"

DeLand notes. "Any document can be accessed quickly and easily from the office or the jobsite." *DocumentVision's* key features include form design, document

"In talking to contractors, we discovered one of their biggest challenges was keeping up with the volume of company and project-related documents," says Rick DeLand, Vice President of JOBPOWER Software. "Managers and office personnel complained they were inundated with invoices, RFIs, change orders, job site photos, emails, correspondence and more. We developed *DocumentVision* to meet their need. It surpasses off-the-shelf document management software because of its many contractor-specific tools and features."

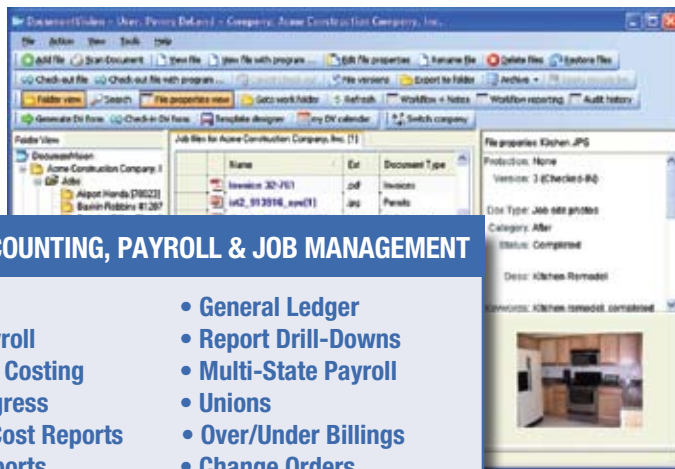

DOCUMENT MANAGEMENT MADE EASY

DocumentVision is an easy-to-use solution for electronic

generation, security, follow-up tracking, quick search, workflow reporting and calendar reminders. Mail merge capabilities make it simple to create virtually any construction document including RFIs, submittals, and transmittals.

JOB COST ACCOUNTING MADE EASY

JOBPOWER is the company's integrated accounting, payroll and job cost management solution. "We have more than 25 years of experience working with contractors and developing construction specific technology," DeLand points out. "*JOBPOWER* beats the competition in features, value and support by offering

JOBPOWER ACCOUNTING, PAYROLL & JOB MANAGEMENT

three months." *DocumentVision* also works with QuickBooks®. **JOBPOWER**

an affordable, proven, reliable and easy-to-use solution for all accounting, payroll and job management functions. Used in conjunction with *DocumentVision*, the contractor has beginning-to-end project visibility and control."

DOCUMENTVISION IS COST-EFFECTIVE

"The typical contractor's office spends about 20 minutes per person per day filing and locating documents," says DeLand. "With three people in the office paid an average of \$16 per hour, that translates to 21 hours or \$342 per month. With the ROI from *DocumentVision*, the software will pay for itself and a multi-feed scanner in just over

and *DocumentVision*, an unsurpassed cost savings team, work together to combine power and ease of use with features specific to construction and contractors.

Contractors using the *JOBPOWER* and *DocumentVision* integrated software suite report these benefits:

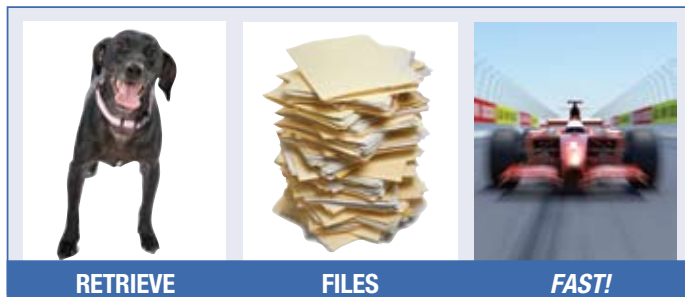

- Accurate Up-to-Date Job Costing
- Time and Cost Savings
- Increased Visibility across All Projects
- Reduction in Accounting Errors
- Standardized Workflow
- Profit Protection with Full Audit Trails
