2024 Federal Tax Factors

Federal Income Tax Withholding Rates

For the updated Federal 2024 tax brackets and rates, use the tax factors included in this newsletter. This information comes from the *Publication 15-T - 2024 Percentage Method Tables for Automated Payroll Systems*.

To revise the Federal Income Tax Rates, go to **Payroll** tab, select **Tax Factors: Update Federal**. You will see the screen below.

Revise the 'Factors effective date', then click **Single** and **Work on Factors**. The program will display the current tax factors and allow you to change them as necessary. Use the tax factors on the following pages to update the information on each of the 4 tabs. Match the factors by line number. Change the tax factors on the screen to match the ones in the newsletter.

To verify you have done this correctly, the factors control number on the screen should match the corresponding factors control number on the page in this newsletter.

Once the **Single** have been revised, do the same for **Married, HOH, Single 1 Job, Married 1 Job**, etc. NOTE: Status 3— HOH is no longer used as of January 2024.

If you enter the tax factors from the newsletter and the 'Factors control' on the screen does not match the Factors Control on the page in the newsletter, recheck what you entered, line by line; either you missed a line or entered a number incorrectly.

There are 8 tax statuses for 2024. Use status 1, or 2 if Form W-4 is from 2019 or earlier (**status 3 is no longer used**); if the Form W-4 is from 2020 or later and the box in Step 2 of Form W-4 is **NOT** checked, use status 4, 5 or 6. If the Form W-4 is from 2020 or later and the box in Step 2 of Form W-4 **IS** checked, use status 7, 8 or 9. (See image shown for the box in Step 2 of the 2024 W-4 form.)

The tax status available are:

- 1) **Single**
- 2) **Married**
- 3) **HOH (no longer used as of Jan 2024)**
- 4) **Single 1 Job**
- 5) **Married 1 Job**
- 6) **HOH 1 Job**
- 7) **Single > 1 Job**
- 8) **Married > 1 Job**
- 9) **HOH > 1 Job**

Form W-4

The following information is from the IRS Publication 15-T, [Federal Income Tax Withholding Methods](#), for use in 2024.

Beginning with the 2020 Form W-4, employees are no longer able to request adjustments to their withholding using withholding allowances. Instead, using the new [Form W-4](#), employees provide employers with amounts to increase or decrease the amount of taxes withheld and amounts to increase or decrease the amount of wage income subject to income tax withholding.

Every Form W-4 employers receive from an employee in 2020 or later should show a completed Step 1 (name, address, social security number, and filing status) and a dated signature on Step 5. Employees complete Steps 2, 3, and/or 4 only if relevant to their personal situations. Steps 2, 3, and 4 show adjustments that affect withholding calculations.

Form W-4 Employee's Withholding Certificate		OMB No. 1545-0047
Department of the Treasury Internal Revenue Service		2024 Complete Form W-4 so that your employer can withhold the correct federal income tax from your pay. Give Form W-4 to your employer. Your withholding is subject to review by the IRS.
Step 1: Enter Personal Information	(a) First name and middle initial _____ Last name _____ Address _____ City or town, state, and ZIP code _____	(b) Social security number _____ Does your name match the name on your social security card? If not, to ensure you get credit for your earnings, contact SSA at 800-772-1213 or go to www.ssa.gov.
(c) <input type="checkbox"/> Single or Married filing separately <input type="checkbox"/> Married filing jointly or Qualifying surviving spouse <input type="checkbox"/> Head of household (Check only if you're unmarried and pay more than half the costs of keeping up a home for yourself and a qualifying individual)		
Complete Steps 2-4 ONLY if they apply to you; otherwise, skip to Step 5. See page 2 for more information on each step, who can claim exemption from withholding, and when to use the estimator at www.irs.gov/W4App.		
Step 2: Multiple Jobs or Spouse Works	Complete this step if you (1) hold more than one job at a time, or (2) are married filing jointly and your spouse also works. The correct amount of withholding depends on income earned from all of these jobs. Do only one of the following. (a) Use the estimator at www.irs.gov/W4App for most accurate withholding for this step (and Steps 3-4). If you or your spouse have self-employment income, use this option; or (b) Use the Multiple Jobs Worksheet on page 3 and enter the result in Step 4(c) below; or (c) If there are only two jobs total, you may check this box. Do the same on Form W-4 for the other job. This option is generally more accurate than (b) if pay at the lower paying job is more than half of the pay at the higher paying job. Otherwise, (b) is more accurate.	
Complete Steps 3-4(b) on Form W-4 for only ONE of these jobs. Leave those steps blank for the other jobs. (Your withholding will be most accurate if you complete Steps 3-4(b) on the Form W-4 for the highest paying job.)		
Step 3: Claim Dependent and Other Credits	If your total income will be \$200,000 or less (\$400,000 or less if married filing jointly): Multiply the number of qualifying children under age 17 by \$2,000 \$ _____ Multiply the number of other dependents by \$500 \$ _____ Add the amounts above for qualifying children and other dependents. You may add to this the amount of any other credits. Enter the total here 3 \$ _____	
Step 4 (optional): Other Adjustments	(a) Other income (not from jobs). If you want tax withheld for other income you expect this year that won't have withholding, enter the amount of other income here. This may include interest, dividends, and retirement income 4(a) \$ _____ (b) Deductions. If you expect to claim deductions other than the standard deduction and want to reduce your withholding, use the Deductions Worksheet on page 3 and enter the result here 4(b) \$ _____ (c) Extra withholding. Enter any additional tax you want withheld each pay period 4(c) \$ _____	
Step 5: Sign Here	Under penalties of perjury, I declare that this certificate, to the best of my knowledge and belief, is true, correct, and complete. Employee's signature (This form is not valid unless you sign it.) _____ Date _____	
Employers Only	Employer's name and address _____	First date of employment _____ Employer identification number (EIN) _____
For Privacy Act and Paperwork Reduction Act Notice, see page 3. Cat. No. 1020302 Form W-4 (2024)		

Rules for Entering Tax Credits / Dependents in JOBPOWER

1. W-4 is from 2019 or earlier:

Enter the total number of exemptions in Federal Withholding Number of Allowances Box on tab **2-Taxes** of the employee's record in JOBPOWER.

[Payroll: Employees: Add/Revise: Tab 2]

2. W-4 is from 2020 or later and has an amount entered in Step 3 – Claim Dependents:

If the employee has indicated an amount in Step 3 – Claim Dependents on their W-4 form, divide that amount entered by the number of weeks in your pay period.

(Weekly = 52; Bi-Weekly = 26; Semi-Monthly = 24; Monthly = 12).

Enter the result in the Adjust calculated by field in the employee record in JOBPOWER as a negative amount.

[Payroll: Employees: Add/Revise: Tab 2]

Amount in the example below represents a weekly payroll with \$2000 entered in Step 3 of the W-4 2020 or later. (\$2000/52 weeks = \$38.46). You will enter the calculated amount as a negative in this field.

Step 3:	If your total income will be \$200,000 or less (\$400,000 or less if married filing jointly):	
Claim Dependents	Multiply the number of qualifying children under age 17 by \$2,000 ▶	\$ 2000.00
	Multiply the number of other dependents by \$500 ▶	\$
	Add the amounts above and enter the total here	3 \$ 2000.00

IMPORTANT NOTE: If when preparing payroll, the 'Adjust calculated by' amount entered in the employee record causes the total Federal Withholding on the payroll to be less than \$0.00, you **must** revise the withholding amount to be zero before ok'ing the payroll.

3. W-4 is from 2020 or later and no amount has been entered in Step 3 – Claim Dependents:

If the employee has NOT indicated any amount in Step 3 – Claim Dependents on their W-4 form, enter zero in the Federal Withholding Number of allowances Box and select the option to Use calculated withholding amount.

**These deduction calculations are ONLY to be used for the Federal Withholding exemptions/dependents. It is NOT to be used to calculate any applicable state withholdings or exemptions.
